PROFESSIONAL SUMMARY

A recent information technology graduate interested in front-end and back-end development. Proficient in HTML, CSS, JavaScript, and frameworks like React and Tailwind CSS. Backend development skills include Node.js, Express, and MongoDB. Notable for problem-solving skills, attention to detail, and critical thinking. Eager to contribute to important projects and advance professionally.

EDUCATION

Haldia Institute of Technology <i>Bachelor of Technology in Information Technology</i> • CGPA: 8.62	Haldia, India Oct 2020 – Jun 2024
--	--------------------------------------

SKILLS

Programming Languages: Java, C, SQL, JavaScript, HTML, CSS, Data Structures
Frameworks & Libraries: React.js, Tailwind, Bootstrap, Firebase, Sass, Jest, React Testing Library
Technologies: Node.js, Express.js, MongoDB, RESTful API
Tools: Git, GitHub, Visual Studio, MySQL, Postman, Cloudinary, Multer

PROJECTS

Full Stack Blog App <i>React, Node.js, Express, MongoDB, JWT, Material-UI</i> • Developed a blogging platform for creating, viewing, editing, and deleting posts. • Implemented authentication, allowing only authors to manage their posts. • Included title, summary, content (with a rich text editor), and optional cover image via Cloudinary. • Integrated voice-based search using react-speech-recognition. • Created a detailed post view with content, author details, creation date, and comments. • Designed a responsive layout for seamless device experience. • Secured sensitive data with environment variables.	2024 Link
Expense Management System <i>React, Node.js, Express, MongoDB, Axios, Moment.js, Ant Design</i> • Developed a comprehensive expense management app for tracking personal finances. • Added features for managing transactions, including income and expenses. • Designed an intuitive dashboard with visual progress indicators. • Implemented secure user authentication and data privacy. • Included analytics for transactions, income vs. expense, and category-wise distribution. • Used Ant Design for a modern, responsive UI. • Utilized MongoDB for efficient data handling and scalability.	2024 Link
Daily News App <i>HTML, CSS, JavaScript, Bootstrap, Firebase</i> • Created a news application with HTML, CSS, JavaScript, and Bootstrap. • Developed a user dashboard for news feed customization. • Integrated Firebase Authentication for secure user management. • Implemented session management and user authentication. • Used Firebase Realtime Database for efficient data storage.	2023 Link
